Mike,

I have attached several files including a revised EDD that includes the sample volumes in units of m3, a copy of the chain of custody, the data review memo from the CHP, and a document that includes the address for each sampling location. You should be getting a phone call and/or an email from Heth Parnell to discuss the sample volumes.

Each sampling location was assigned a location number 1 through 12. These are used at the beginning of the sample ID as A001 through A012. If you have any questions on the nomenclature, please let us know.

Kristie

Hi Kristie,

I received the data you sent for my review and I thank you. I will need additional information in order to complete by data review, please send me the locations information (i.e. the information NMED/RCB provided to EPA), (e.g. Santa Clara Pueblo, Lookout), and the air volume corrected (STP) in cubic meters for each location. Thank you in advance for the information requested.

Michael Ortiz, Bureau Chief
Radiation Control Bureau
NMED/EPD

Mike,

Here is a dataset that has been reviewed by Rick Haaker. If you have any questions or request any revisions, please let us know. As soon as you have reviewed and concur with the data review, I will load the data into Scribe.Net.

Thanks,
Kristie

Kristie (Kettler) Warr
